ROI CALCULATOR

CALCULATE YOUR ROI POTENTIAL

Number of lifts you would like to add

Average profit per job

Potential additional jobs per day with an added lift

How many days per week is your shop open?

How many weeks per year are you open?

Additional profit per week potential with added lift(s)

Additional annual profit potential with added lift(s)

YOU SELL LIFTS - LIFTS SELL PARTS

On average, having a lift installed in a bay will double the amount of revenue that that bay will earn. Based on the information that you provided above, and an average in parts purchased per job, you can expect to see the following increase in parts purchased once a shop has a lift installed in their shop.

Average parts sale per job (in dollars)

Additional weekly parts sales opportunity
