FLOOR CARE GUIDE

SPOT-ON PERFORMANCE. EVERY TIME.

FLOOR CARE – YOU CAN COUNT ON

Mi-T-M's new floor care line is built for cleaning professionals who need reliable, easy-to-use solutions. The lineup includes spot and carpet extractors, wet/dry vacuums and an air mover – everything you need for quick cleanups, deep carpet care and fast drying.

Durable housings, long-life motors and user-friendly tools ensure lasting performance, while heated extractor models deliver a deeper clean by removing embedded dirt, allergens and reducing dry times for healthier spaces.

From commercial facilities to rental units and high-traffic areas, Mi-T-M floor care equipment makes every job easier and more effective. Inside this brochure, you'll find product details, key features and tips to help you choose the right equipment for your needs.

STACKABLE AIR MOVERS

The 3-speed air mover delivers up to 2400 CFM and offers tilt adjustment, stackable frame for fast, efficient drying.

Model # **FAN-10FOM**

**1/2 HP, 115V,
4.5A Motor**

**3-Speed Fan
780 / 1000 / 1150 RPM**

**Air Flow Rates
1500 / 1900 / 2400 CFM**

POWER CORD
20-foot cord

BUILT-IN HANDLE
For easy portability

HOUSING
High impact poly housing

3-SPEED MOTOR
Adjustable air flow for
different drying needs

OUTLET
Built-in outlet
lets you connect
multiple units
together

PROTECTIVE SCREENS
Air intake and outlet screens
keep airflow free from debris

FAN BLADE

10-inch fan blade with 14-inch opening
delivers strong, consistent airflow

LIMITED WARRANTIES

1 year motor
Lifetime on housing

STACKABLE

Ability to stack air movers
2 or 3-high, allows for
easy storage and use

TILT ADJUSTMENT

Tilts to 45 or 90-degree
angles to direct air where
it's needed most

CONFIDENCE IN EVERY CLEAN

UNLOCK THE POTENTIAL

TIPS AND TRICKS

Pre-Treatment: Pre-treat stubborn stains before extracting for faster results.

Heated Extraction: Choose heated extraction (when available) to break down oils and grime for a deeper, longer-lasting clean.

Cleaning: Clean in slow, overlapping passes so the vacuum can pull out the most dirt and water.

Drying Time: Speed up drying time by running an air mover immediately after cleaning.

Clean-up: Empty and rinse tanks after each use to prevent buildup and keep equipment performing like new.

BENEFITS OF HEATED EXTRACTION

Deeper Clean: Hot water works deep in carpet fibers to loosen oils, grime and embedded dirt that cold water can't reach.

Healthier Spaces: Heated cleaning helps remove allergens, bacteria, and dust mites – ideal for homes with pets, kids or allergy-sensitive occupants.

Faster Dry Times: Heat speeds evaporation, so carpets dry quicker and spaces can be used again sooner.

Professional Results: Heated extraction is the industry gold standard, delivering the kind of deep clean pros rely on.
